## 8. ALUMINI

Tagore Institute of Engineering and Technology was established in the year 2008 with the vision to empower budding engineers in technical and entrepreneurial training and to contribute to the socio-economic augmentation of the nation. The Alumni Association plays a pivotal role in strengthening links between the institute, department and its alumni. This will strengthen our efforts in placement, project works and Industry-Institution Interaction. They are dynamic professionals, successful entrepreneurs with a great passion in all their endeavours with ethics and values. Around 2000 alumni are spread across the globe which is a significant milestone. Moreover, it aims to

maintain a database of alumni contact details (addresses and numbers). It vows to organize an annual reunion/get-together where ex-students can revive pleasant memories of the time they had spent at TIET. Alumni Association provide good interaction between the former students and the college through periodical meetings, project consultancy, placement activities and guest lectures / seminar thereby making the alumni to be a part of developmental activities, taking place in the college.

Alumni Association aims to facilitate lifelong learning through the exchange of ideas and knowledge. Alumni pool skills and apply available resources to enhance personal and career development for their students. We could also implement a mentor/mentee relationship management tool to help junior Alumni get in touch with experienced Alumni willing to share their expertise and best practices in a given field. The TIET culture has impacted how actively alumni contribute to their communities.

The association has set up a healthy tradition of identifying a distinguished alumnus and invites him or her for a special function every year where he/she is honored, felicitated and presented with a citation during the farewell function for outgoing students. Alumni Association can make a bridge between the past and present students of the institution and help to strengthen academic activities with the present scenario of employment opportunity and also motivate them to achieve their respective professional career.

The Association plans to setup guidance cell to aid the present and past students in the task of trying to give their future a definite and purposeful direction. The guidance cell, apart from assisting the placement cell, will also assist present students in availing project facilities in various industries in their area of interest and provide internships to benefit our current students. Conducting minimum 2 alumni activities each semester in the respective department like guest lecture, workshops, project reviews, judging for competitions etc. Helping the students and faculties to get technical and financial help or projects from Alumni. Helping the students to get internship and job offerings from alumni

The institute looks for active participation of its ex-students in Alumni Surveys to understand and assess the effectiveness of the curriculum and other activities and programmes based on feedback from its alumni, in defining its goal with respect to the mission and vision of the institute.

## **Operational Features of the IQAC**

Quality assurance is a by-product of ongoing efforts to define the objectives of an institution, to have a work plan to achieve them and to specify the checks and balances to evaluate the degree to which each of the tasks is fulfilled. Hence devotion and commitment to improvement rather than mere institutional control is the basis for devising procedures and instruments for assuring quality. The right balance between the health and growth of an institution needs to be struck.

The IQAC has to ensure that whatever is done in the institution for “education” is done efficiently and effectively with high standards. In order to do this, the IQAC will have to first establish procedures and modalities to collect data and information on various aspects of institutional functioning. The coordinators of the IQAC and the secretary have a major role in implementing these functions. The IQAC may derive major support from the already existing units and mechanisms that

contribute to the functions listed above. The operational features and functions discussed so far are broad based to facilitate institutions towards academic excellence and institutions may adapt them to their specific needs.
